Introduction

LEVOLOR® PREMIER™ WOVEN WOODS COLLECTION

The LEVOLOR® PREMIER™ Woven Woods Collection adds a warm, rich dimension to any room, whether they're hanging flat in the fully lowered position or raised, creating even, overlapping folds. Their appearance is relaxed and inviting, perfectly complemented by total functional reliability.

FABRICS

Woven Woods shades offer a wide variety of woven fabrics in opacities ranging from sheer to opaque in trend-right colors, patterns, and textures.

- 21 fabric styles and 50 color-ways.
- Four opacity levels: Sheer, Semi-Sheer, Semi-Opaque, and Opaque.
- Neutral Streetside liners available in five designer hues in both room-darkening and light-filtering fabrics, featuring a neutral street side color.
- Tonal Streetside liners available in three designer hues in room-darkening fabrics only, featuring the same color room side and street side.

UNIQUE APPEARANCE

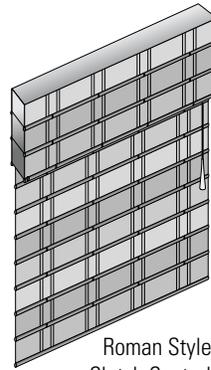

Woven Woods shades are created from natural wood, reeds, bamboo, and grasses and will age beautifully in the home. Over time, some patterns may stretch in length or grow slightly darker or lighter in color depending on the material. Variations in stain, pattern irregularities, and knots are all unique characteristics that contribute to the natural beauty of your shade. Perfect alignment of fabric may not be possible due to varying widths of materials and looseness of weave, creating truly one-of-a-kind shades, made uniquely for each consumer.

SHADE STYLE OPTIONS

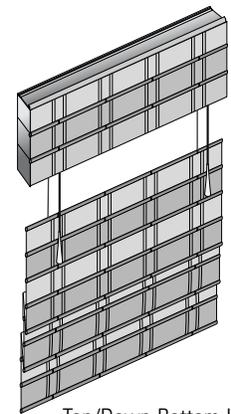

- Roman Style — Fabric hangs flat in fully lowered position and creates even overlapping folds when raised.
- Waterfall Roman Style — Fabric hangs from the front of the headrail for a tailored look.

SPECIALTY OPTIONS

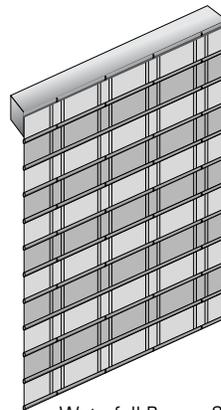

- Top Down/Bottom-Up shades operate from the top-down and from the bottom-up.
- Two-On-One-Headrail shades feature two shades on one headrail that can be operated independently.

Size Standards

LEVOLOR® PREMIER™ WOVEN WOODS COLLECTION

How to Use the Size Standards Charts

The Size Standards chart is designed to be a quick reference to size standards, price charts and where to find further product specifications. Price charts are referenced by chart number next to the fabric style(s), and further product specifications are referenced by a link to the operating system. Always read the notes under the chart for important additional information. **Important: shade dimensions must be equal to or less than the maximum dimensions (width and height) and equal to or greater than the minimum dimensions (width and height) to be within specification guidelines.**

Notes for Automation III Roman and Waterfall Roman Styles Size Standards

- Larger shades may require an additional motor. In these instances, an additional alkaline battery wand or satellite battery pack is required for maximum performance and will be automatically included with the shade for no additional surcharge.
- For Valance width minimums and maximums, see Valance Product Specifications[∞] for additional information.
- Two-On-One Headrail is not available with Automation III.

Notes for Retractable Wand Size Standards

- Waterfall Roman style is not available with Retractable Wand.
- Two-On-One Headrail: maximum width is 120"; per panel minimum and maximum widths and heights are the same as single panel shades.
- For Valance width minimums and maximums, see Valance Product Specifications[™] for additional information.

Finished Dimensions/Fabric Deductions

LEVOLOR® PREMIER™ WOVEN WOODS COLLECTION

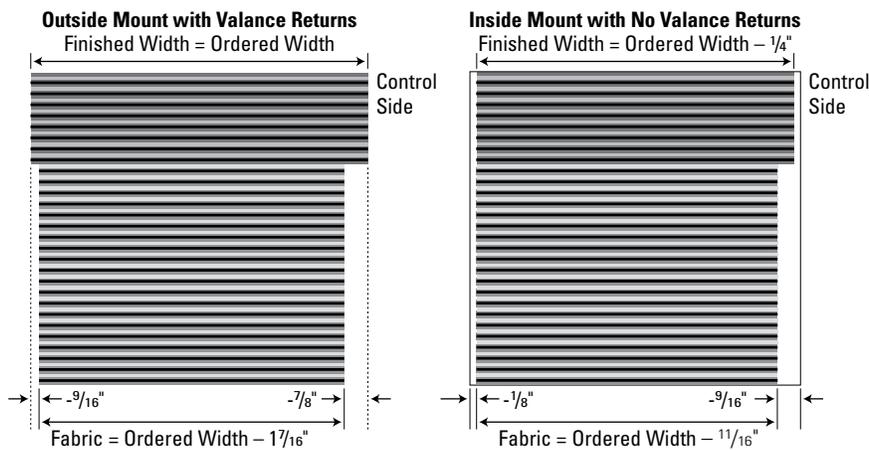

CLUTCH CONTROL SHADES		with Attached Liner or No Liner			Top-Down/Bottom-Up with Attached Liner or No Liner		
		Control Side ¹	Non-Control Side	Total	Left Side	Right Side	Total
Inside Mount (IB)	Finished Width:	-1/8"	-1/8"	-1/4"	-1/8"	-1/8"	-1/4"
	Fabric Deductions:	-9/16"	-1/8"	-11/16"	-5/8"	-5/8"	-1 1/4"
Outside Mount (OB)	Finished Width:	Ordered Width			Ordered Width		
	Fabric Deductions — With Returns ² :	-7/8"	-9/16"	-1 7/16"	-1 5/16"	-1 5/16"	-1 7/8"
	Fabric Deductions — Without Returns or with Cornice Valance:	-7/16"	0"	-7/16"	-1/2"	-1/2"	-1"

¹ For Two-On-One Headrail shades, both sides are control sides; there is no non-control side. The left wand will operate the left panel and the right wand will operate the right panel.

² On shades with valances, the finished width is the width of valance including returns when applicable. In these instances the headrail width will not equal the finished width because deductions are taken to accommodate returns.

Notes

- Refer to Operating Systems And Options™ chart for style availability with each operating system and liner option.
- Light gap between panels on Two- and Three-On-One Headrail is 1/2".
- Finished height is ordered height, except when Cornice Valance™ is ordered. See Cornice Valance™ for details.
- Finished Dimensions — All allowances are taken from ordered dimensions and width may vary +0/-1/8"; height may vary +0/-1/4".

Finished Dimensions/Fabric Deductions

LEVOLOR® PREMIER™ WOVEN WOODS COLLECTION

CORDLESS ⁵ , AUTOMATION III ⁵ , AND RETRACTABLE WAND SHADES		with Attached Liner or No Liner			Top-Down/Bottom-Up ³ with Attached Liner or No Liner		
		Control Side ¹	Non-Control Side	Total	Left Side	Right Side	Total
Inside Mount (IB)	Finished Width:	-1/8"	-1/8"	-1/4"	-1/8"	-1/8"	-1/4"
	Fabric Deductions:	-1/8"	-1/8"	-1/4"	-3/16"	-3/16"	-3/8"
Outside Mount (OB)	Finished Width:	Ordered Width			Ordered Width		
	Fabric Deductions — With Returns ^{2, 4} :	-9/16"	-9/16"	-1 1/8"	-5/8"	-5/8"	-1 1/4"
	Fabric Deductions — Without Returns or with Cornice Valance:	0"	0"	0"	-1/16"	-1/16"	-1/8"

¹ For Two-On-One Headrail shades, both sides are control sides; there is no non-control side. The left wand will operate the left panel and the right wand will operate the right panel.

² Waterfall Roman style Cordless and Automation III shades come standard with a 2 1/2" return on outside mounts (OB).

³ Top-Down/Bottom-Up is not available with Cordless.

⁴ On shades with valances, the finished width is the width of valance including returns when applicable. In these instances the headrail width will not equal the finished width because deductions are taken to accommodate returns.

⁵ Two-On-One Headrail is not available with Automation III or Cordless.

Notes

- Refer to Operating Systems And Options™ chart for style availability with each operating system and liner option.
- All operating systems have equal deductions on each side. Divide the specified deduction in half to determine the left and right side deductions.
- Light gap between panels on Two-On-One Headrail is 1/2".
- Finished height for Automation III, Cordless, and Retractable Wand shades is ordered height, except when Cornice Valance is ordered with Modern Headrail. See Cornice Valance™ for details.
- Finished Dimensions — All allowances are taken from ordered dimensions and width may vary +0/-1/8"; height may vary +0/-1/4".
- Additional Cordless finished dimensions/fabric deductions:
 - Total finished width and fabric deduction for inside mount (IB) with Attached Liner or No Liner is -1/4".
 - Total fabric deduction with returns for outside mount (OB) is -1 1/8".
 - Total fabric deduction with returns for outside mount (OB) is -1 1/4". Without Returns or with Cornice valance is -1/8".

108"	15½"	16½"

Notes

- The above chart is intended as a general guideline for stacking heights; shades may vary slightly from the values shown and chart does not include the height of headrail.

Additional Information

- Woven Wood Shades are created from natural wood, reeds, bamboo, and grasses and will age beautifully in your home. Over time, some patterns may stretch in length or grow slightly darker or lighter in color depending on the material. Variations in stain, pattern irregularities, and knots are all unique characteristics that contribute to the natural beauty of the shade.
- In any shade with a valance, the valance is the widest part of the shade. In Waterfall Roman style shades (no valance), the fabric is the widest part of the shade.
- For more information regarding Automation III design and operation, see the Automation III section of the Reference Guide.

Pricing – How to Price

LEVOLOR® PREMIER™ WOVEN WOODS COLLECTION

Product price only, not including freight, state/local taxes, measuring and installation, and other services associated with a custom installation.

Step 1: Select Fabric

- Use Size Standards™ to confirm size is available.
- Click link to appropriate price grid.

SIZE STANDARDS	OPERATING SYSTEM 1		OPERATING SYSTEM 2		OPERATING SYSTEM 3	
	Standard	Alternate Design Option	Standard	Alternate Design Option	Standard	Alternate Design Option
MINIMUMS						
Min. Width						
Min. Height						
FABRIC NAME, FABRIC CODE (PRICE CHART LINK)						
Max. Width						
Max. Height						

Step 2: Identify Base Price

- Select Price Grid based on desired fabric.
- Identify width. If ordered width falls between two listed widths, round up to the next largest width.
- Identify height. If ordered height falls between two listed heights, round up to the next largest height.

Example: 27" x 52"

GRID 1		Base Price														Fabric Name			
WIDTH TO		24"	30	36	42	48	54	60	66	72	78	84	96	108	120	132	144	156	174
HEIGHT TO	36"	\$																	
	42																		
	48																		
	54		X																
	60																		

Step 3: Add Applicable Surcharges

Operating systems and design options may require a surcharge. All surcharges need to be added to the base price. See Pricing – Surcharges & Accessories™.

Operating System

Operating System Surcharges

(Add to base price)

Operating System 1 \$X per shade (any shade width)

Design Options

Design Option Surcharges

(Add to base price)

Design Option 1 \$X

Design Option 2 \$X

Step 4: Add Applicable Accessories

Several operating systems offer accessories, at an additional cost, to improve the customer experience.

- Add each accessory charge to the base price.

Operating System Accessory Pricing

(Add to base price)

Accessory 1 \$X

Accessory 2 \$X

Notes

- For stand-alone valance specifications, see Stand-Alone Cornice Valance™ and Stand-Alone Roman Valance™.

Additional Information

- The Roman valance 6½" and 8" heights are optional for the Modern Headrail Roman shade.
- The Modern valance comes at the 2½" height only on the Modern Headrail shade.
- The Cornice valance is a surcharge option for the Modern Headrail in the 6½" or 8" height, outside mount (OB) only. A 3½" or 5½" depth is available, determined by the height of the shade. For specifications, see Valance Product Specifications™.
- All valances are lined with color-coordinated room-darkening fabric.

Notes

- Edge banding is recommended on grass fabrics and inside mount Roman valances to help protect edges from fraying.
- Edge banding is not available on the Cornice valance.
- If edge banding is ordered on a horizontal unit, both shade and valance come with edge banding on the sides. The edge banding for the valance is included in the above surcharges.
- If edge banding is ordered on a stand-alone valance, the above surcharges for height to 36" apply.

Ordering Notes

LEVOLOR® PREMIER™ WOVEN WOODS COLLECTION

All Operating Systems

To successfully place an order via Direct Connect, all orders must include the information in "All Operating Systems" and the desired operating system ordering notes section.

All Orders Are Final

All LEVOLOR® PREMIER™ window coverings are custom fabricated and are not subject to change or cancellation. As with all products created from natural wood, reeds, bamboo, and grasses, over time some patterns may stretch in length or grow slightly darker or lighter in color depending on the material. Variations in stain, pattern irregularities, and knots are all unique characteristics that contribute to the natural beauty of the shades.

Surcharges

All items marked with an asterisk (*) require an additional surcharge. See Pricing – Surcharges & Accessories™.

Quantity and Design Options

Quantity

Complete one line item for every shade configuration that is the same.

Design Options

Select: Bottom-Up (Standard) or Top-Down/Bottom-Up
Top-Down/Bottom-Up not available in Cordless.

Fabric and Color Options

Fabric Type

Both Fabric # and Fabric Name are required.

Fabric Color

Both Color # and Color Name are required.

Shade Style

Select: Standard Roman or Waterfall Roman
Clutch Control and Retractable Wand not available in Waterfall Roman shade style.

Size, Valance Style, and Mounting Options

Ordered Size

Provide Width and Height measurements.

Valance Style

Select: Modern Valance, Standard Roman Valance or Cornice Valance
The 2½" Modern valance is the standard valance for the Modern Headrail Standard Roman shade style. The 6½" and 8" valance heights are optional for the Standard Roman Valance and Cornice Valance.
Cornice Valance available for outside mount only.

Mount Type

Select: IB or OB
See Operating System Specifications™ for standard deductions.

Inside Mount (IB)

Automatic deductions are made from the ordered width for inside mount applications.

Outside Mount (OB)

For outside mount applications, the measurement provided determines the width and height.

Opacity, Edge Banding, and Valance Returns Options

Opacity System

Select: Attached Liner* or No

- See Cordless™ and Retractable Wand™ ordering notes for opacity system options.

Opacity Option

Select: Neutral Liner Light-Filtering*, Neutral Liner Room-Darkening*, or Tonal Liner Room-Darkening*

Opacity Option Color

If Opacity Option selected, Opacity Option Color defaults to system color coordinated liner. To override defaulted color liner, click on drop-down arrow in field and select desired Color # and Color Name.

Reversed Liner Option

Select: Yes or No

Reverse liner option applicable to Neutral Liner light filtering and room darkening options only. (Not applicable to Tonal Liner since face and street side colors are the same color.)

Edge Banding

Select: No or Sides Only

If Sides Only selected, select Edge Banding Style.

Edge Banding Style

Select: Narrow or Wide

Edge Banding Color

If Edge Banding Sides Only and Edge Banding Style selected, Edge Banding Color defaults to system color coordinated edge banding. To override defaulted color edge banding, click on drop-down arrow in field and select desired Color # and Color Name.

Valance Returns

Select: Yes or No

Only appears if Outside Mount selected.

Hardware Options

Extension Brackets

Select: Yes or No

Spacer Blocks

Select: Yes or No

Hold Down Brackets

Select: No or Hold Down Brackets

Hold Down Brackets not available for Automation III shades.

Ordering Notes

LEVOLOR® PREMIER™ WOVEN WOODS COLLECTION

Clutch Control

See also the All Operating Systems™ section to complete the order.

Shades on Headrail

Select: Single Panel Shade or Two-on-One Headrail*

If Single Panel Shade, specify: Width and Height

If Two-on-One Headrail, specify: Width, Left Width, Right Width, and Height

Two-on-One headrail is only available with Standard (Bottom-Up) shade.

Control Side

Select: Left or Right

Notes

- For Two-on-One Headrail, left panels will only have a left cord, and right panels will only have a right cord.

Cord Length Override

Select: Yes or No

IMPORTANT: The revised ANSI/WCMA safety standard requires that all products ordered with free hanging and accessible operating cords have a default length of no more than 40% of the product height when the window coverings is fully deployed. While your customer may order their cords longer than this default measurement, please advise them that the 40% length limitation is intended to help prevent accidental strangulation injury or death.

- Cord loop length may vary +/- 1/2".

Universal Tensioner Color Override

Specify Color # and Color Name.

Universal Tensioner Color

- Select from the following colors:
 - 320 Rich Cream
 - 661 White Tiara
 - 689 Ash
 - 903 Desert Gold

Note

- The Cord Tensioner color coordinates with the cord loop.

Cordless

See also the All Operating Systems™ section to complete the order.

Automation III

See also the All Operating Systems™ section to complete the order.

Hardware Options

Receiver Option

Select: Automation Right RF Receiver

Automation III Power Supplies

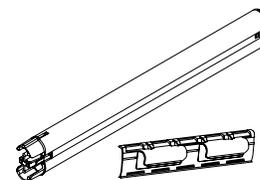

- A power supply option must be selected for standard Automation III shades. Available power supply options for standard Automation III are listed below.
- Select spare power supplies can be ordered as accessories in a product quote.
- Additional power supplies may also be ordered as parts in DirectConnect.

Rechargeable Battery Wand

- The rechargeable battery wand assembles into its respective rechargeable battery mount, which can be clipped to the rear of the headrail or satellite-mounted. Select the desired battery location when ordering.
 - **Headrail Mount:** The rechargeable battery will be clipped to the rear of the headrail using the included clips.
 - **Satellite Mount:** The rechargeable battery will be mounted to the wall or window frame using the included mount and screws. Select the desired extension cable length: 15", 4', 10', or 20'.
- To recharge battery wands, LEVOLOR® PREMIER™ provides two charging options, a dual charging station and a single charger. Chargers are sold separately, and can be ordered via the Automation III Accessories page of DirectConnect.

Battery Wand

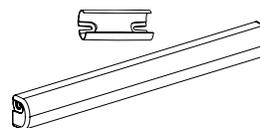

A preloaded alkaline battery wand comes standard with product and is mounted behind the headrail. There is no additional charge for the Battery Wand.

Satellite Battery Pack

Select cable length: 15", 4', 10', or 20'

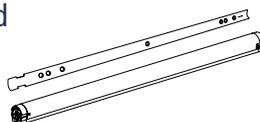

The satellite battery pack connects to the right side of the headrail where the programming button is located. It is often the best choice when the window treatment is mounted in a high window, restricting access to a battery wand, or when mounting depth is low.

C-Size Satellite Battery Wand

Select cable length: 15", 4', 10', or 20'

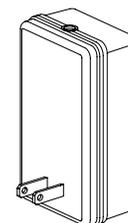

Battery life is approximately three years, depending on the window treatment type, size, and usage.

18V DC Power Supply

Select cable length: 15", 4', 10', 20'

The 18V DC Power Supply plugs into any standard household outlet and eliminates the need to use batteries on Automation III systems.

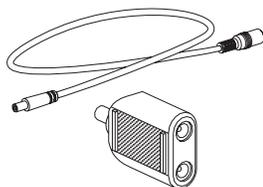

Ordering Notes

LEVOLOR® PREMIER™ WOVEN WOODS COLLECTION

Daisy-Chain Cable

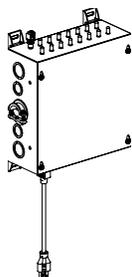

Select cable length: 15", 4', 10', 20'.T

- Extension cables are used with the Y Adapter(s) to create a daisy-chain cable.
- "Daisy-chain" refers to the method of powering up to three blinds from a single 18V DC Power Supply (required, not included).
- Each daisy-chained blind can be operated individually. The maximum total cable length for a daisy-chain cannot exceed 50'.

16 Shade DC Power Supply

- Powers up to 16 window treatments using low-voltage wiring.
- When ordering, only one power supply is required to power up to 16 shades. For the other shades, the power supply type should be entered as "No Power Source."
- Do not daisy-chain blinds when using the 16 Shade DC Power Supply.

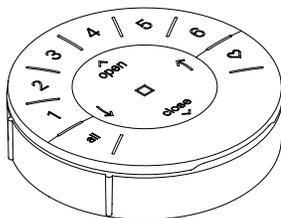

Automation III Accessories

Automation III Remote

Select Quantity (1-9) next to Remote color: Black or White

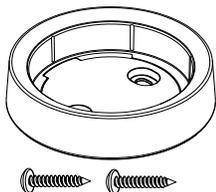

The Automation III Remote Selects precise control of Automation III window treatments. The remote can be used to operate shades individually, in groups, and through "Favorite" positions.

Wall Mount for Automation III Remote

Select quantity (1-9) next to Surface color: Black, Nickel or White

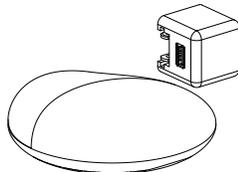

The wall mount is a wall-mounted colored housing matched with the remote module for wall-mounted operation of Automation III window treatments.

Automation III Gateway

Select Quantity (1-9)

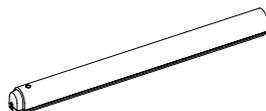

The Automation III Gateway is used in larger Automation III systems to ensure optimal performance. It can also be added to any Automation III system to provide integration with third-party control systems and devices. It can easily be added to any system. Automation III Gateway comes with power cable.

Spare Rechargeable Battery Wand

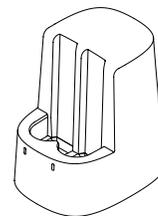

Provide: Quantity (1-9)

When determining how many spares to order, please consider the following: the number of shades, the use/frequency of each shade, how often you might need to recharge the batteries installed in those shades, and ease of access to shades. The battery wand takes two to three hours to recharge and shades are not operable during that time. Three hour max charge time with the dual charging station and two hour max charge time with the single charger. You could use either to charge a spare wand. Order the appropriate number of spares.

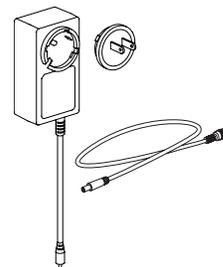

Dual Charging Station

The Dual Charging Station charges up to two rechargeable battery wands simultaneously. Maximum recharge time is three hours. Battery wands can only be recharged with LEVOLOR® PREMIER™ Single Charger or Dual Charging Station.

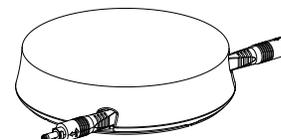

Wand Charger Kit

The wand charger kit includes the Single Charger and your choice of charging cable. The Single Charger charges one rechargeable battery wand in two hours or less, and allows for charging in place. Please select the desired charging cable length: retractable (13'), 3', 12'. Rechargeable battery wands can only be recharged with LEVOLOR® PREMIER™ Single Charger or Dual Charging Station.

Extra Retractable Charging Cable

Select quantity if you need any additional retractable charging cables. The retractable charging cable measures 13'. Mix and match up to two charging cables in order to reach the shade and charge in place. The retractable cable module must rest on a flat surface like a table or floor.

Extra 3' or 12' Charging Cable

Select quantity if you need any additional retractable charging cables. Mix up to two charging cables in order to reach the shade and charge in place.

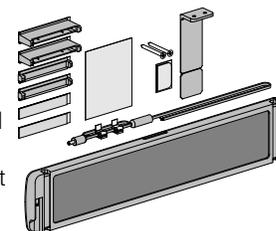

Solar Charger Kit

Select Quantity and Color: Black or White

The Solar Charger is an add-on power supply designed to extend the operational life of a rechargeable battery-equipped shade by utilizing solar energy captured at the window. It can be mounted directly to the window glass or to the window jamb.

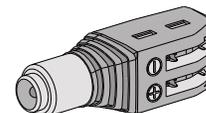

The Solar Charger comes in a kit that includes mounting accessories and a solar charging cable for use with the rechargeable battery wand. Each Solar Charger can charge one rechargeable battery-powered shade.

Quick-Lever Barrel Connectors – Female

Select pack Quantity (8 pieces/pack)

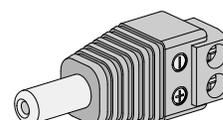

Barrel connectors are used to create the custom cables that supply DC power to Automation III motors. The female barrel connector is required to connect the custom cable to the male barrel connector on the Automation III motor's power cable. Four packages of Quick-Lever barrel connectors (32 total count) are included with each 16 Shade DC Power Supply.

Screw to Barrel Connectors – Male

Select pack Quantity (10 pieces/pack)

Male Barrel Connectors are used to create the custom cables that supply DC Power to Automation III motors.

Ordering Notes

LEVOLOR® PREMIER™ WOVEN WOODS COLLECTION

Retractable Wand

See also the All Operating Systems™ section to complete the order.

Shades on Headrail

Select: Single Panel Shade or Two-on-One Headrail*

If Single Panel Shade, specify: Width and Height

If Two-on-One Headrail, specify: Width, Left Width, Right Width, and Height

Two-on-One headrail is only available with Standard (Bottom-Up) shade.

Control Side

Select: Left or Right

Notes

- For Two-on-One Headrail, left panels will only have a left wand, and right panels will only have a right wand.

Retractable Wand Measuring Guidelines

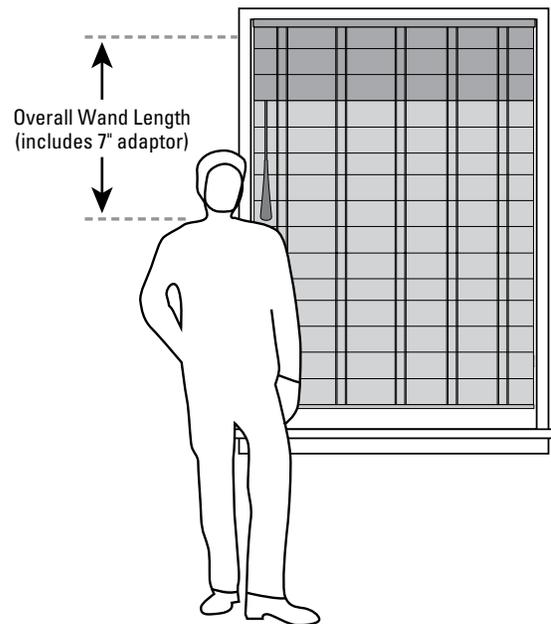

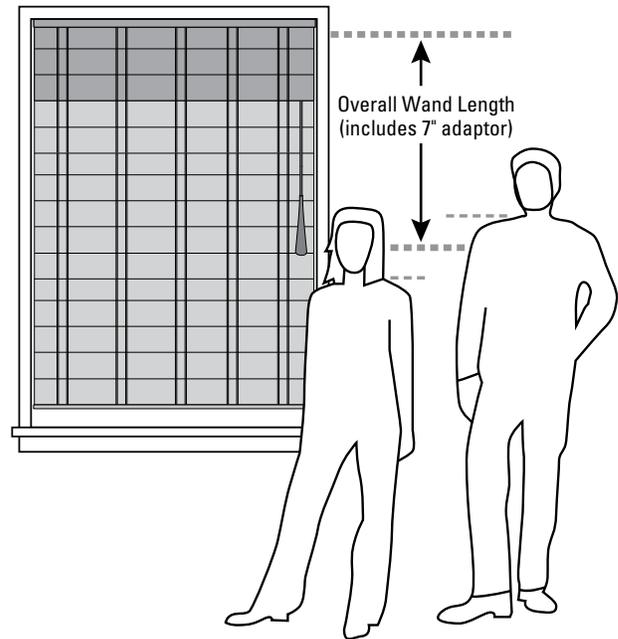

Control wands for shades work best when ordered at a length approximately equal to the distance from the headrail to the shoulder of the user.

- Available overall wand lengths are 19", 25", 31", 37", 43", 49", 55", 61", 67", 73", 79", 85", and 91".

Notes

There is a 7" adaptor piece that is included in the overall wand length.

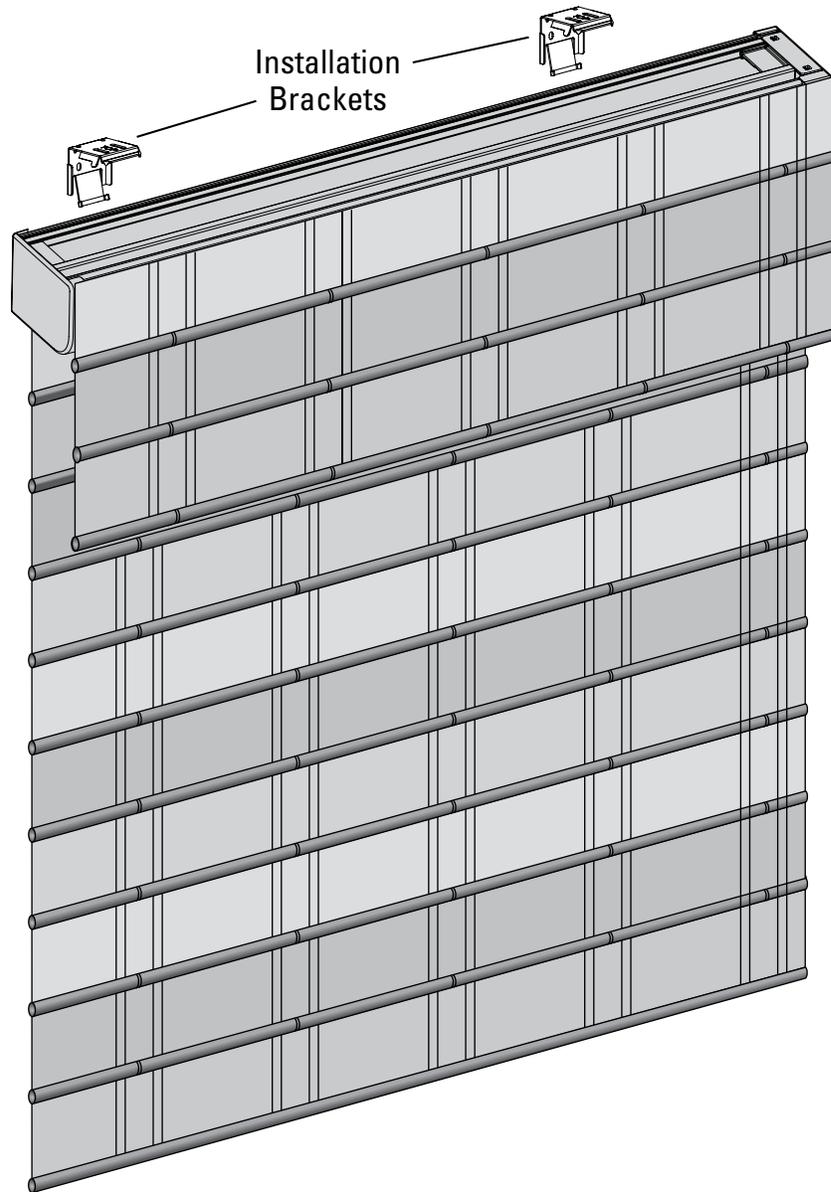

- Adjust the wand length as necessary for customer. The retractable wand should fall between the shoulder heights of the consumers in the home, as shown.

Operating System Specifications

LEVOLOR® PREMIER™ WOVEN WOODS COLLECTION

Modern Headrail Automation III

Applications

- Available in Roman and Waterfall Roman styles
- Bottom-up with right-side motor and control button.
- Top-Down/Bottom-Up with right-side motor and control button
- Returns included with all outside mount (OB) shades

Exclusions

- Hold down brackets
- Returns on inside mount (IB)
- Return length options with Waterfall Roman style
- Cornice valance on inside mount (IB)
- Left-side motor and control button on Bottom-up and Top-Down/Bottom-up Automation III shades
- Two-On-One Headrail

Additional Information

- Fabric alignment cannot be guaranteed with side-by-side shades.
- Top-Down/Bottom-Up Automation III shades must be operated as top down or bottom up; they cannot perform both operations at the same time.

Optional Features

No Charge

- 5/8" spacer blocks
- 6 1/2" or 8" Roman valance (2 1/2" Modern valance is standard)
- Extension brackets

Surcharge

- Attached Tonal or Neutral color liner
- Cornice valance 6 1/2" or 8" heights, depth determined by height of shade (OB only)
- Edge banding
- Top-Down/Bottom-Up

Notes

- See Pricing – Surcharges & Accessories[™] for price information.

Hardware

Included

- 12 AA alkaline batteries
- Battery wand and clip
- Light gap strip (inside mount only)
- Modern Headrail installation brackets
- Spacer blocks (outside mount with headrail-mounted battery wand only)

Size Standards

See Size Standards[™].

Mounting Requirements

Inside Mount (IB)

Minimum mounting depth

Battery wand	1 1/2"
Satellite battery pack or 18V DC Power Supply	7/8"
Headrail-mounted rechargeable battery wand	1 7/8"

Minimum mounting depth, flush mount ¹

Battery wand	3 1/2"
Satellite battery pack or 18V DC Power Supply	2 7/8"
Headrail-mounted rechargeable battery wand	3 7/8"

Outside Mount

Minimum flat vertical surface	1 3/4"
-------------------------------	--------

¹ Includes fabric on valance.

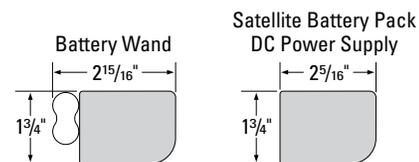

Notes

- Outside mounts with a headrail-mounted battery wand require a spacer block (5/8" for alkaline battery wand and 1" for rechargeable battery wand) to be used with each installation bracket due to the added clearance needed to mount the wand.
- If planning to install a Solar Charger, consider the size, placement, and mounting requirements. For Solar Charger dimensions and cable lengths, see the Automation III section of the Reference Guide. For mounting requirements, see the Solar Charger Installation Guide

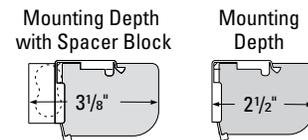

Finished Dimensions

(All allowances are taken from ordered dimensions and width may vary +0/-1/8" ; height may vary +0/-1/4".)

See Automation III[™] Finished Dimensions

Inside Mount (IB) Headrail Dimensions

Outside Mount (OB) Headrail Dimensions

Operating System Specifications

LEVOLOR® PREMIER™ WOVEN WOODS COLLECTION

Modern Headrail Clutch Control

Applications

- Available in Roman style.
- Two-On-One Headrail
- Top-Down/Bottom-Up
- Returns included with all outside mount (OB) shades.

Exclusions

- Waterfall Roman style
- Hold down brackets for Two-On-One Headrail
- Returns on inside mount (IB)
- Cornice valance on inside mount (IB)

Important

In accordance with the revised American National Standard for Safety of Corded Window Covering Products, Clutch Control shades require proper mounting of the cord tensioner for the product to function properly. The cord tensioner should not be modified in any way.

Additional Information

- Fabric alignment cannot be guaranteed with side-by-side and Two-On-One Headrail shades.

Optional Features

No Charge

- $\frac{3}{8}$ " spacer blocks
- 6 $\frac{1}{2}$ " or 8" Roman valance (2 $\frac{1}{2}$ " Modern valance is standard)
- Cord loop color override
- Extension brackets
- Hold-down brackets

Surcharge

- Attached Tonal or Neutral color liner
- Cornice valance 6 $\frac{1}{2}$ " or 8" heights, depth determined by height of shade (OB only)
- Edge banding
- Two-on-One headrail
- Top-Down/Bottom-Up

Notes

- See Pricing – Surcharges & Accessories™ for price information.

Hardware

Included

- Modern Headrail installation brackets
- Cord tensioner and mounting kit
- Light gap strip (inside mount only)

Size Standards

See Size Standards™.

Exclusions

- Waterfall Roman style
- Hold down brackets for Two-On-One Headrail
- Returns on inside mount (IB)
- Cornice valance on inside mount (IB)

IMPORTANT

The revised ANSI/WCMA safety standard requires that all products ordered with free hanging and accessible operating cords have a default length of no more than 40% of the product height when the window covering is fully deployed. While your customer may order their cords longer than this default measurement, please be sure to advise them that the 40% length limitation is intended to help prevent accidental strangulation injury or death.

Additional Information

- Fabric alignment cannot be guaranteed with side-by-side and Two-On-One Headrail shades.
- Recommended wand length for proper ergonomics is the end of the wand at shoulder height of the user. For recommended measurements, see the Retractable Wand Measuring Guidelines™.

Optional Features

No Charge

- $\frac{3}{8}$ " spacer blocks
- 6½" or 8" Roman valance (2½" Modern valance is standard)

Design Option Specifications

LEVOLOR® PREMIER™ WOVEN WOODS COLLECTION

Attached Liner

Applications

- Attached to the back of the woven wood fabric is a color-coordinated fabric with opacity option, offering privacy around the clock when the shade is lowered. Color override is available.
- Two fabric options available:
 - Light-Filtering fabric diffuses light.
 - Room-Darkening fabric blocks up to 98% of light for total privacy.
- Available with all Woven Wood Shades.
- Fabric liner is attached to the shade and cannot be operated separately from the shade.
- Tonal Color Liners offer the same color to the street side and face of the shade. Colors are available in Clay, Sand, and Steel.
- Neutral Color Liners offer a neutral color to the street side of the shade. Colors are available in Chocolate, Hazelnut, Cream, Gray, and White all with off-white backing:
 - Colors may be ordered reversed.

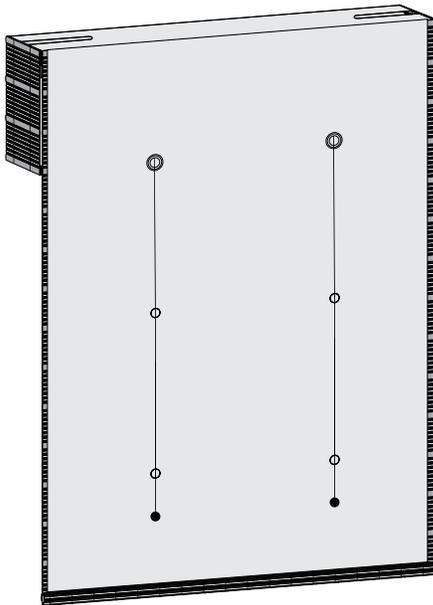

Exclusions

- Retrofit attached fabric opacity option
- Light-Filtering in Tonal Liner colors
- Reversing Tonal Color Liners
- Mystic fabric with attached liner on Cordless

Finished Dimensions

(All allowances are taken from ordered dimensions and width may vary $+0/-1/8$; height may vary $+0/-1/4$.)

Liner width $-1/4$ " from face fabric
($-1/8$ " on each side)

Design Option Specifications

LEVOLOR® PREMIER™ WOVEN WOODS COLLECTION

Edge Banding

Applications

- Color-coordinated edge banding sewn onto the edges of Woven Wood Shades creates a beautiful frame around woven wood fabrics. Color override is available.
- Edge banding is available on side of Roman shade, Waterfall Roman shade, Roman valance, and Modern valance
- Edge banding wraps from the front to the back of the shade with half of banding visible from the front of the shade, creating a frame around the fabric.
- Visible width of banding shown on front of shade:
 - Narrow Grosgrain = $\frac{5}{8}$ "
 - Wide Grosgrain = $1\frac{1}{2}$ ".
- Price using the Edge Banding Surcharges — Sides Only™ surcharges.
- Shades cannot be retrofitted with edge banding.
- Edge banding is recommended on fabrics prone to fraying on fabric edges (see Pricing – Price Grids™ notes for suggested fabrics.)
- If edge banding is ordered on a horizontal unit, both shade and valance come with edge banding on the sides. The edge banding for the valance is included in the Edge Banding Surcharges — Sides Only™ price chart.

Exclusions

- Top and bottom edge banding on horizontal shades or valances
- Edge banding with hold-down brackets
- Cornice valances

Cornice Valance

Outside Mount Cornice Valance

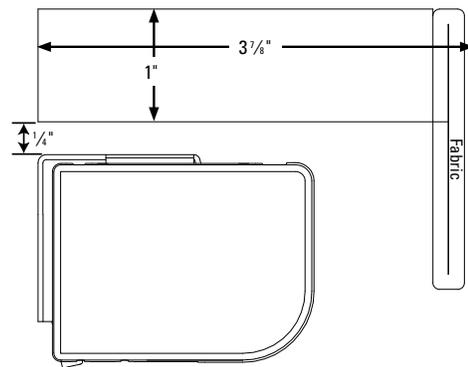

- The Cornice valance features a fabric-wrapped look with the face attached to the returns. Larger depths accommodate all stacking heights, see the Cornice Valance Shade Height Maximum for Board Depths™ chart for specifications.
- The optional Cornice valance is available with Modern Headrail Roman shades as an option.
- The Cornice valance is available for outside mount (OB) only.
- Available in 6½" or 8" height.
- Available in 3½" or 5½" depth.
- See notes below Finished Dimensions chart for important ordering information.
- All valances are lined with color-coordinated room-darkening lining.

Exclusions

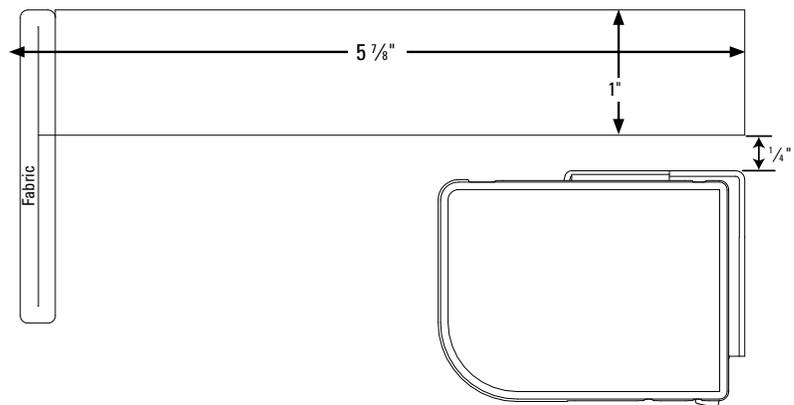

- Inside mount (IB) Cornice valance
- Valance on Waterfall Roman style shades
- Light-filtering lining

Notes

- The valance will be 2" wider than the ordered shade width.
- The shade is 1¼" shorter than the ordered height to accommodate for the thickness of the valance headboard.
- Exact pattern alignment is not guaranteed on all fabrics due to natural inherent characteristics.

How to Determine Board Depth

- Establish if shade will have attached liner or edge banding, and find the two columns for 3½" and 5½" board within the criteria.
- Find the fabric selected to see if shade height ordered fits within the 3½" or 5½" board.
- Board depth overrides are not allowed when sizing down.

Valance Product Specifications

LEVOLOR® PREMIER™ WOVEN WOODS COLLECTION

Modern Valance

Outside Mount Modern Valance

- The 2½" lined Roman valance comes standard with Modern Headrail Roman shades.
- The Modern valance is recommended with the Modern Headrail to help prevent the face of the valance from protruding forward on shades with large stacking height.
- Returns are standard with outside mount (OB).
- All valances are lined with color-coordinated room-darkening lining.

Exclusions

- Light-filtering lining
- Valance on Waterfall Roman style shades

Size Standards

See Size Standards™.

Size Standards	
Width	
Minimum	Varies per operating system; see single panel shade minimum
Maximum single panel for all fabrics	Varies per operating system; see single panel shade maximum

Mounting Requirements

Inside Mount (IB)

Minimum mounting depth	7/8"
Minimum mounting depth, flush mount	2 1/8"

Outside Mount (OB)

Minimum flat vertical surface	1 3/4"
-------------------------------	--------

Notes

- On inside mount (IB) Automation III shades with attached battery wand, add 5/8" to minimum depths.

Finished Dimensions

(All allowances are taken from ordered dimensions and width may vary +0/-1/8 ; height may vary +0/-1/4".)

Valance Product Specifications

LEVOLOR® PREMIER™ WOVEN WOODS COLLECTION

Roman Valance

Outside Mount Roman Valance

- The Roman valance features a relaxed profile where the face does not attach to the returns. This allows for the face to move with the fabric as the shade is raised and lowered on shades with large stack heights.
- The 6½" lined Roman valance is optional for Roman shades.
- Valance heights of 6½" and 8" are available.
- All outside mount (OB) shades come with a standard size return.
- Inside mount (IB) shades do not come with returns.
- Shades cannot be retrofitted with returns.
- All valances are lined with color-coordinated room-darkening lining.

Exclusions

- Light-filtering lining
- Valance on Waterfall Roman style shades

Size Standards

See Size Standards™.

Size Standards	
Width	
Minimum	Varies per operating system; see single panel shade minimum
Maximum	Varies per operating system; see single panel shade maximum
Height	
6½" or 8"

Stand-Alone Roman Valance

- The Stand-Alone Roman valance comes on the Traditional headrail and features a relaxed profile where the face does not attach to the returns. This allows for the face to move with the fabric as the shade is raised and lowered on shades with large stack heights.
- Valance heights of 6½" or 8" are available. See Pricing – Price Grids™ for pricing.
- Standard and Petite returns are available.
- All valances are lined with color-coordinated, room-darkening lining.

Exclusions

- Light-filtering lining

Size Standards

See Size Standards™.

Size Standards	
Width

Finished width	ordered width

Valance Product Specifications

LEVOLOR® PREMIER™ WOVEN WOODS COLLECTION

Stand-Alone Cornice Valance

- The Cornice valance features a fabric-wrapped look with the face attached to the returns.
- Cornice valance is available for outside mount (OB) only.
- Available in 6½" or 8" height.
- Available in 3½" or 5½" depth.
- Refer to Cornice Valance Shade Height Maximum for Board Depths™ chart if mounting over Woven Wood Shades for depth restrictions.
- Refer to Shade Stacking Height Maximums when placing over other products.
- When ordering to place over a shade, deduct 1¼" from shade height to accommodate for valance board thickness including installation clearance. Add an additional 2" onto valance width from your standard shade order width.
- All valances are lined with color-coordinated room-darkening lining.

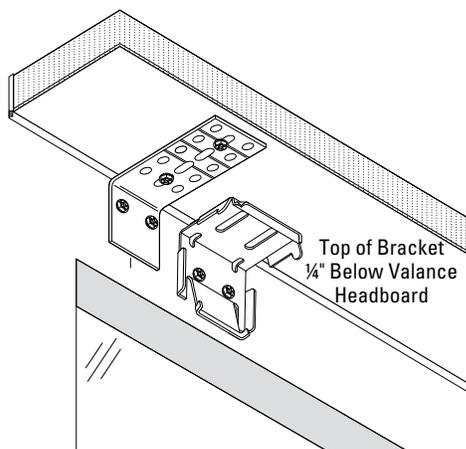

Exclusions

- Inside mount (IB) Cornice valance
- Light-filtering lining
